Introductory Information

Unless otherwise specified, the information in this presentation, including forward-looking statements, is as of our most recent earnings call held on July 28, 2022. We make no commitment to update any such information contained in this presentation.

Certain statements in this presentation are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995, known as the PSLRA. These statements can generally be identified by the use of forward-looking terminology such as “believe,” “expect,” “may,” “will,” “should,” “seek,” “on-track,” “plan,” “project,” “forecast,” “intend,” “anticipate” or “target,” or the negative thereof or comparable terminology, or by discussions of vision, strategy or outlook. These statements are based on current plans, estimates and projections, and, therefore, you should not place undue reliance on them. No forward-looking statement can be guaranteed, and actual results may differ materially from those projected. Factors that could cause actual results to differ materially from those projected include, but are not limited to, the following: (1) the cyclical nature of our business, which is highly sensitive to North American construction and industrial activities; if construction or industrial activity decline, our revenues and, because many of our costs are fixed, our profitability may be adversely affected; (2) uncertainty regarding the ongoing impact of existing and emerging variant strains of the coronavirus (COVID-19) on global economic conditions, and regarding the length of time it will take for the COVID-19 pandemic to ultimately subside or become viewed as endemic. Uncertainty remains regarding the effectiveness of vaccines against COVID-19 (including against emerging variant strains), and the time it will take for the pandemic to subside will also be impacted by measures that may in the future be implemented to protect public health; (3) the impact of global economic conditions (including supply chain constraints, potential trade wars and sanctions and other measures imposed in response to the ongoing conflict in Ukraine) and public health crises and epidemics, such as COVID-19, on us, our customers and our suppliers, in the United States and the rest of the world; (4) rates we charge and time utilization we achieve being less than anticipated; (5) excess fleet in the equipment rental industry; (6) inability to benefit from government spending, including spending associated with infrastructure projects; (7) trends in oil and natural gas, including significant increases in the prices of oil or natural gas, could adversely affect the demand for our services and products; (8) competition from existing and new competitors; (9) our significant indebtedness, which requires us to use a substantial portion of our cash flow for debt service and can constrain our flexibility in responding to unanticipated or adverse business conditions; (10) the inability to refinance our indebtedness on terms that are favorable to us, including as a result of volatility and uncertainty in capital markets or increases in interest rates, or at all; (11) the incurrence of additional debt, which could exacerbate the risks associated with our current level of indebtedness; (12) noncompliance with financial or other covenants in our debt agreements, which could result in our lenders terminating the agreements and requiring us to repay outstanding borrowings; (13) restrictive covenants and amount of borrowings permitted in our debt instruments, which can limit our financial and operational flexibility; (14) inability to access the capital that our businesses or growth plans may require, including as a result of uncertainty in capital or other financial markets; (15) the possibility that companies that we have acquired or may acquire could have undiscovered liabilities or involve other unexpected costs, may strain our management capabilities or may be difficult to integrate; (16) the incurrence of impairment charges; (17) fluctuations in the price of our common stock and inability to complete stock repurchases in the time frame and/or on the terms anticipated; (18) our charter provisions as well as provisions of certain debt agreements and our significant indebtedness may have the effect of making more difficult or otherwise discouraging, delaying or deterring a takeover or other change of control of us; (19) inability to manage credit risk adequately or to collect on contracts with a large number of customers; (20) turnover in our management team and inability to attract and retain key personnel, as well as loss, absenteeism or the inability of employees to work or perform key functions in light of public health crises or epidemics (including COVID-19); (21) costs we incur being more than anticipated, including as a result of inflation, and the inability to realize expected savings in the amounts or time frames planned; (22) inability to obtain equipment and other supplies for our business from our key suppliers on acceptable terms or at all, as a result of supply chain disruptions, insolvency, financial difficulties or other factors; (23) increases in our maintenance and replacement costs and/or decreases in the residual value of our equipment; (24) inability to sell our new or used fleet in the amounts, or at the prices, we expect; (25) risks related to security breaches, cybersecurity attacks, failure to protect personal information, compliance with data protection laws and other significant disruptions in our information technology systems; (26) risks related to climate change and climate change regulation; (27) risks related to our ability to meet our environmental and social goals, including our greenhouse gas intensity reduction goal; (28) the fact that our holding company structure requires us to depend in part on distributions from subsidiaries and such distributions could be limited by contractual or legal restrictions; (29) shortfalls in our insurance coverage; (30) increases in our loss reserves to address business operations or other claims and any claims that exceed our established levels of reserves; (31) incurrence of additional expenses (including indemnification obligations) and other costs in connection with litigation, regulatory and investigatory matters; (32) the costs of complying with environmental, safety and foreign laws and regulations, as well as other risks associated with non-U.S. operations, including currency exchange risk, and tariffs; (33) the outcome or other potential consequences of regulatory matters and commercial litigation; (34) labor shortages and/or disputes, work stoppages or other labor difficulties, which may impact our productivity, and potential enactment of new legislation or other changes in law affecting our labor relations or operations generally; and (35) the effect of changes in tax law. For a more complete description of these and other possible risks and uncertainties, please refer to our Annual Report on Form 10-K for the year ended December 31, 2021, as well as to our subsequent filings with the SEC. The forward-looking statements contained herein speak only as of the date hereof, and we make no commitment to update or publicly release any revisions to forward-looking statements in order to reflect new information or subsequent events, circumstances or changes in expectations.

Note: This presentation provides information about free cash flow, EBITDA, adjusted EBITDA and adjusted EPS, which are non-GAAP financial measures. This presentation includes a reconciliation between free cash flow and GAAP cash from operations, a reconciliation between both adjusted EBITDA and EBITDA, on the one hand, and GAAP net income, on the other hand, and a reconciliation between forward-looking free cash flow and forward-looking GAAP cash from operations. Information reconciling forward-looking adjusted EBITDA to GAAP financial measures is unavailable to the company without unreasonable effort. The company is not able to provide reconciliations of forward looking adjusted EBITDA to GAAP financial measures because certain items required for such reconciliations are outside of the company's control and/or cannot be reasonably predicted, such as the provision for income taxes. Preparation of such reconciliations would require a forward-looking balance sheet, statement of income and statement of cash flow, prepared in accordance with GAAP, and such forward-looking financial statements are unavailable to the company without unreasonable effort. The company provides a range for its adjusted EBITDA forecast that it believes will be achieved, however it cannot accurately predict all the components of the adjusted EBITDA calculation.

Our customers and the benefits of renting vs. owning

Customer Mix*

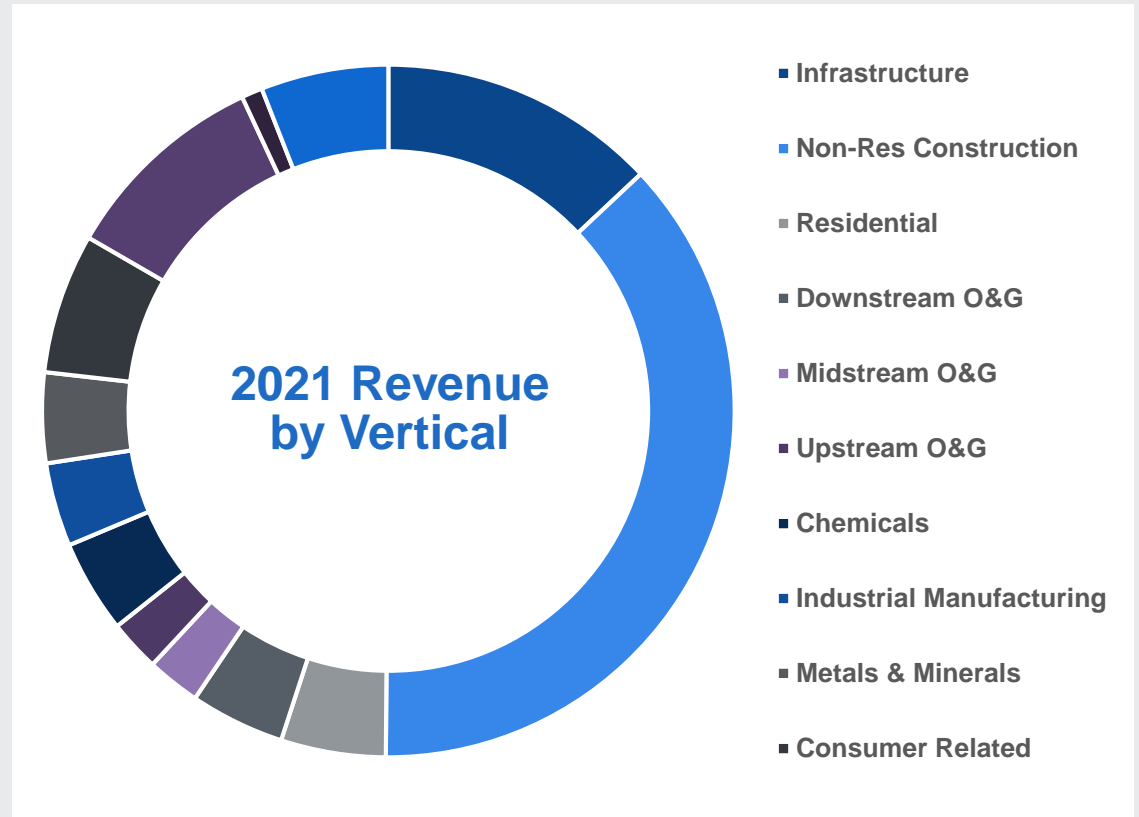

Why Customers Rent Instead of Buy

- Conserve capital / focus on core business
- The right equipment for any job/availability
- Reliability/reduce downtime
- Control expenses and inventory
- Outsourced maintenance (labor)
- Outsourced pick-up/delivery (labor)
- Save on storage/warehousing
- 24/7 customer care/support
- Save on disposable costs
- Manage risks: regulatory, obsolesce, etc.

Despite diverse needs, customers derive many benefits from renting

*Note: Based on 2021 full-year rental revenue.

Diverse end-market exposure

Broad customer base helps reduce full-cycle volatility

*Note: Based on 2021 rental revenue.

A decade of continued financial improvement...

Aggressive growth in Specialty competitively differentiates our product and solution offering to customers, improves full-cycle returns, and helps reduce business volatility

Specialty provides strong growth opportunities⁽¹⁾

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Specialty as % of Total Rev:	7.2%	9.5%	14.5%	16.0%	17.7%	18.9%	21.4%	23.2%	24.5%	27.7%

Specialty represented almost 28% of total revenue in 2021 at ~\$2.7 billion

(1) Tool Solutions was added in 2013, Fluid Solutions was added in April 2014 and Mobile Storage was added in May 2021.

Note: Data includes 1) Specialty reporting segment (comprised of our Fluid Solutions, Fluid Solutions Europe, Trench Safety, Power & HVAC, Mobile Storage and Mobile Storage International regions) and 2) Reliable Onsite Services and Tools revenues, which are included in our General Rentals reporting segment.

Long-term capital allocation strategy

Manage Leverage

- Target leverage range over the cycle of 2.0x–3.0x.
- Net leverage^(1,2): 2.0x
- Total liquidity⁽²⁾: \$2.83 billion
- Next long-term note maturity: 2027
- Credit ratings⁽³⁾:
 - S&P: BB+/Stable
 - Moody's: Ba1/Stable

Invest in Growth

Organic

- Continued organic investments to support growth and boost productivity.
- Opened 30 specialty branches in 2021 vs. 15 in 2020 and ~30 in both 2018-2019, targeting ~45 openings in 2022.

M&A

- Balance sheet strategy creates flexibility to pursue strategic assets as opportunities arise.
- Specialty: National Pump, BakerCorp, and General Finance to augment Specialty.
- GenRent: NES, Neff, and BlueLine to support “grow the core” strategy.

Return Excess Cash to Investors

- The 2022 \$1 billion repurchase program commenced in the first quarter of 2022. Through June 30, 2022, \$762 million was purchased. The company expects to complete the program in the third quarter of 2022.
- Since 2012, United Rentals has returned over \$4.7 billion to shareholders, representing 39% of total issued shares.

Disciplined, prudent, efficient, and opportunistic approach to capital allocation

(1) Leverage ratio calculated as net debt divided by LTM adjusted EBITDA. Net debt calculated as the balance sheet value of debt less cash and cash equivalents.

(2) As of June 30, 2022.

(3) As of July 25, 2022.

M&A strategy: Disciplined and opportunistic

Strategic

- Proactively supports growth in attractive markets
- Difficult to replicate organically
- Access to new customers
- Enhance cross-selling
- Best practice adoption
- Geographic coverage
- Diversification

Financial

- Invest capital at attractive returns over cycle
 - Revenue growth
 - Margin opportunities
 - Manage leverage
 - Internal Rate of Return
 - ROIC
 - Volatility

Cultural

- Safety
- Talent
- Ethics and integrity
- Management philosophy
- Customer focus
- Community

ESG Highlights: Environmental

Selected Highlights

Emissions

- ✓ Progress against existing goal: 9% reduction in greenhouse gas (GHG) emissions intensity in 2021 vs. 2018 baseline, toward our goal of 35% reduction by 2030
- ✓ Continued to invest in low- and zero-emissions equipment and vehicles for our rental and non-rental fleets, and engage with manufacturers and customers about related opportunities
- ✓ Approximately 27%* of rental fleet is electric or hybrid, with the intent of growing this proportion
- ✓ Benefits of both route and load optimization for deliveries, as well as telematics
- ✓ Customer-facing consumption management tools and new customer-facing estimated GHG and engine emissions reporting tool in Total Control®

*as of 7/20/22 and based on number of units in classes that are motorized (excludes non-motorized and hand tools)

Energy

- ✓ New goal: 95%** of North American locations will have lighting retrofit completed by 2025
- ✓ Energy management across entire branch network
- ✓ Purchased 25,000MWh of renewable energy credits in 2021

**based on footprint as of 6/30/22, does not include locations we may acquire in future

Waste

- ✓ New goal: divert 70% of our waste from landfills by 2025
- ✓ 42.5% of our waste was diverted from landfill in 2021

Other

- ✓ Created Sustainability Steering Committee to drive progress toward our environmental goals; committee comprised of leaders from facilities, fleet, environmental, legal, tax, human resources, digital, marketing, strategy and sales
- ✓ Established new employee resource group, Planet United, to foster environmental awareness across the organization
- ✓ LEAN practices/Continuous Improvement have long been part of URI standard operating procedures

GHG Emissions Intensity (MT CO2e/\$M Revenue)

Includes scope 3 emissions from third party haulers in addition to scope 1 and 2 emissions

— 2030 Goal: 39.5 MT CO2e/ \$M revenue, a 35% reduction from 2018-base level

¹ GHG intensity increased by 5.3% from 2019 to 2020, which was due to absolute emissions decreasing by 4%, while total revenue decreased 8.8%, primarily due to COVID-19 impacts.

Helping build a better future for all stakeholders

Key Drivers of Margin Gains

- Strong fixed-cost absorption
 - Cyclical leverage (e.g., SG&A as % of sales)
 - M&A cost synergies (e.g., RSC, NES, Neff)
- Operational efficiency gains
 - Process improvements (e.g., LEAN, 5S, etc.)
 - Technology (e.g., logistics, CORE, telematics)
- Improved mix
 - Shift towards higher margin Specialty
 - Improved segment/end-market mix
 - De-emphasis of low margin/return businesses
- Improved used equipment sales strategies

Dramatic cycle-over-cycle margin improvement

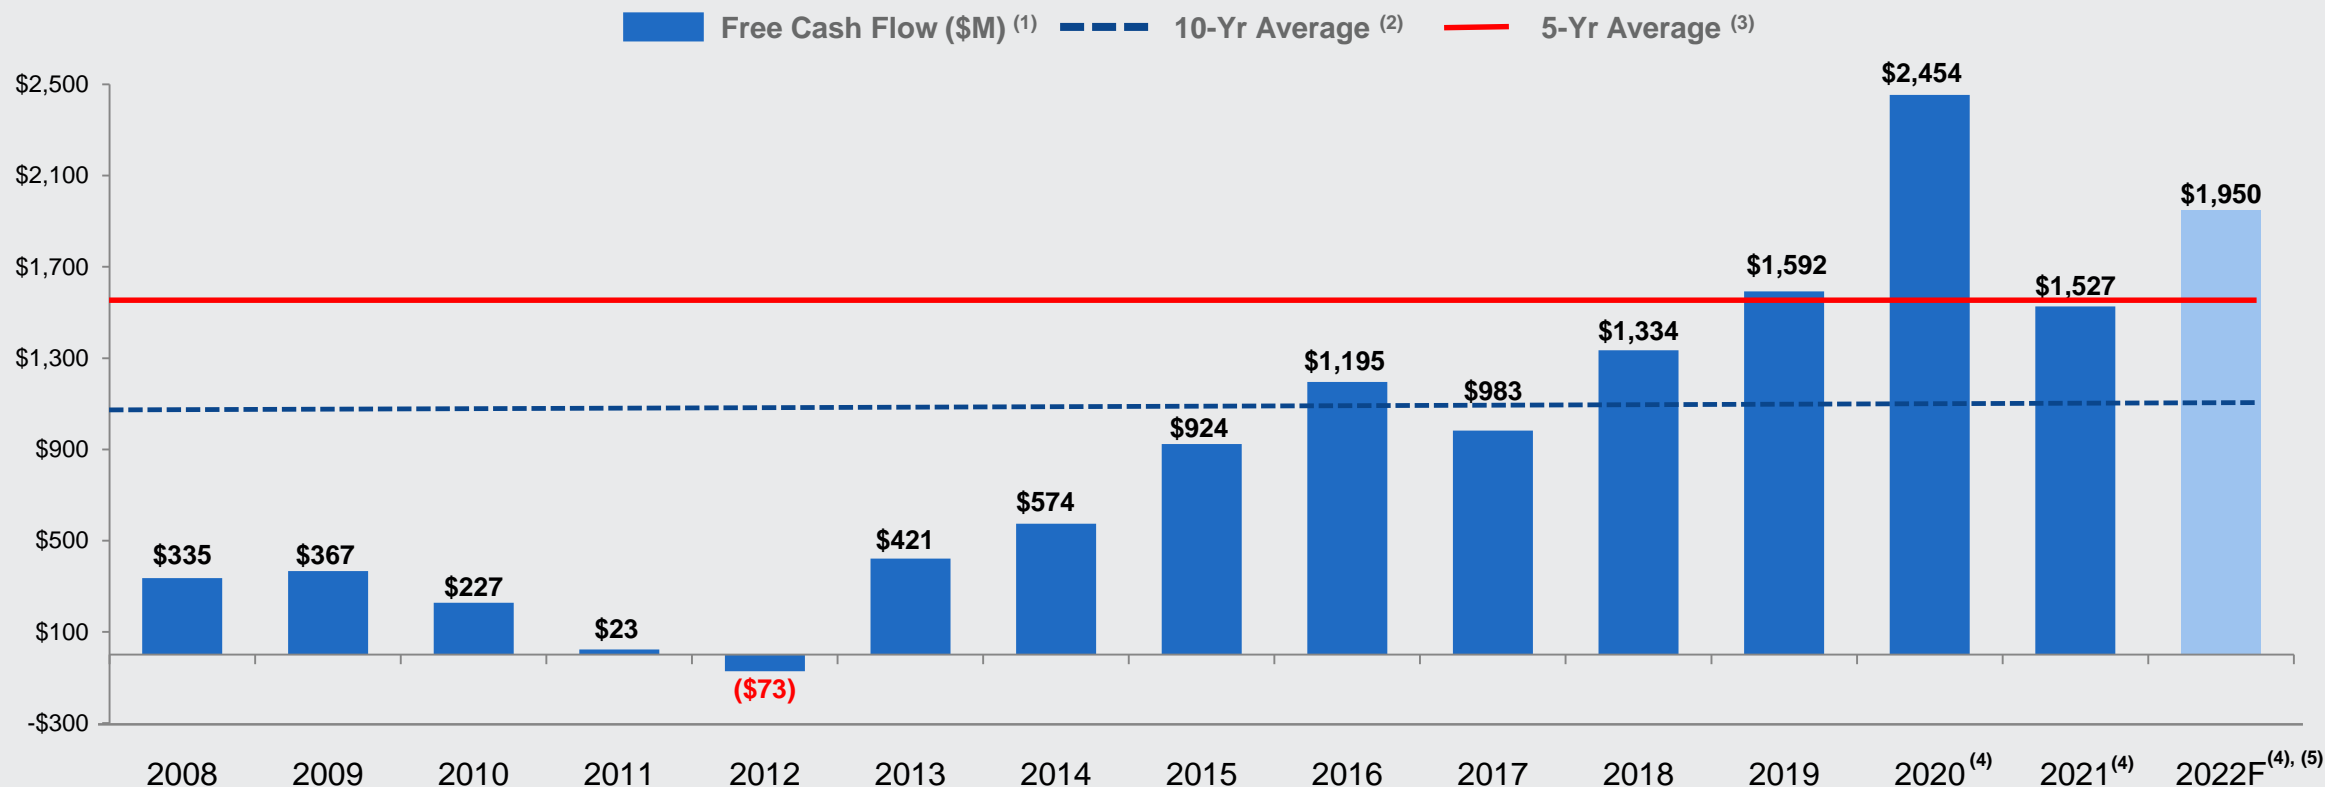

Notes:

(1) Adjusted EBITDA is a non-GAAP measure. Adjusted EBITDA margin represents adjusted EBITDA divided by total revenue. See the tables provided elsewhere in this presentation for reconciliations to the most comparable GAAP measures.

(2) 2022F reflects the mid-point of guidance.

(3) Reflects change between 2008 and 2022F.

Consistent free cash flow generation

~\$7.9B of free cash flow generated over last 5 years⁽³⁾

(1) Free cash flow is a non-GAAP measure. See tables provided elsewhere in this presentation for reconciliations to the most comparable GAAP measure. Merger and restructuring related payments were first reported for 2012. The information required to determine the amount of merger and restructuring related payments for periods prior to 2012 is unavailable without unreasonable effort. Free cash flow for 2012 and subsequent periods above excludes merger and restructuring related payments.

(2) Reflects 10 year period from 2012 to 2021, excluding merger and restructuring related payments.

(3) Reflects 5 year period from 2017 to 2021, excluding merger and restructuring related payments.

(4) 2020 reflects a ~\$1.2 billion year-over-year decrease in net rental capital expenditures, while 2021 reflects a ~\$1.9 billion year-over-year increase in net rental capital expenditures. 2022F net rental capital expenditures are expected to approximate 2021 levels.

(5) 2022F reflects the mid-point of guidance.

Fleet productivity: overview

- ✓ *Fleet Productivity* provides greater insight into the interplay and combined impact of key decisions made by managers every day across (a) rental rates, (b) time utilization, and (c) changes in mix on our Owned Equipment Rental Revenue (i.e., the revenue we generate with our owned rental assets).
 - Mix includes impact of changes in customer mix, fleet mix, geographic mix and business mix (i.e., Specialty).
- ✓ *Fleet Productivity* is a metric that better explains how the combined changes in rental rates, time utilization, and mix come together to produce revenue and how management flexes the combination of these factors to drive efficient growth and benefits returns.
- ✓ *Fleet Productivity* is a comprehensive measure that combines the impact of the change in rental rates **plus** the impact of changes in time utilization **plus** the revenue impact from changes in mix in one metric.

Adjusted Earnings Per Share GAAP Reconciliation

We define "earnings per share – adjusted" as the sum of earnings per share – GAAP, as-reported plus the impact of the following special items: merger related costs, merger related intangible asset amortization, impact on depreciation related to acquired fleet and property and equipment, impact of the fair value mark-up of acquired fleet, restructuring charge, asset impairment charge and loss on repurchase/redemption of debt securities. Management believes that earnings per share - adjusted provides useful information concerning future profitability. However, earnings per share - adjusted is not a measure of financial performance under GAAP. Accordingly, earnings per share - adjusted should not be considered an alternative to GAAP earnings per share. The table below provides a reconciliation between earnings per share – GAAP, as-reported, and earnings per share – adjusted.

\$ Millions	Three Months Ended		Six Months Ended

Tax rate applied to above adjustments (1)	25.3 %	25.4 %	25.3 %	25.3 %

- 1) The tax rates applied to the adjustments reflect the statutory rates in the applicable entities.
- 2) Reflects transaction costs associated with the General Finance acquisition that was completed in May 2021. Merger related costs only include costs associated with major acquisitions completed since 2012 that significantly impact our operations (the "major acquisitions," each of which had annual revenues of over \$200 million prior to acquisition).
- 3) Reflects the amortization of the intangible assets acquired in the major acquisitions.
- 4) Reflects the impact of extending the useful lives of equipment acquired in certain major acquisitions, net of the impact of additional depreciation associated with the fair value mark-up of such equipment.
- 5) Reflects additional costs recorded in cost of rental equipment sales associated with the fair value mark-up of rental equipment acquired in certain major acquisitions and subsequently sold.
- 6) Primarily reflects severance and branch closure charges associated with our closed restructuring programs. We only include such costs that are part of a restructuring program as restructuring charges. Since the first such restructuring program was initiated in 2008, we have completed six restructuring programs. We have cumulatively incurred total restructuring charges of \$353 million under our restructuring programs.
- 7) Reflects write-offs of leasehold improvements and other fixed assets.
- 8) Primarily reflects the difference between the net carrying amount and the total purchase price of the redeemed notes.

EBITDA and Adjusted EBITDA GAAP Reconciliations

EBITDA represents the sum of net income, provision for income taxes, interest expense, net, depreciation of rental equipment, and non-rental depreciation and amortization. Adjusted EBITDA represents EBITDA plus the sum of the merger related costs, restructuring charges, stock compensation expense, net, and the impact of the fair value mark-up of acquired fleet. These items are excluded from adjusted EBITDA internally when evaluating our operating performance and for strategic planning and forecasting purposes, and allow investors to make a more meaningful comparison between our core business operating results over different periods of time, as well as with those of other similar companies. The net income and adjusted EBITDA margins represent net income or adjusted EBITDA divided by total revenue. Management believes that EBITDA and adjusted EBITDA, when viewed with the company's results under GAAP and the accompanying reconciliation, provide useful information about operating performance and period-over-period growth, and provide additional information that is useful for evaluating the operating performance of our core business without regard to potential distortions. Additionally, management believes that EBITDA and adjusted EBITDA help investors gain an understanding of the factors and trends affecting our ongoing cash earnings, from which capital investments are made and debt is serviced.

The table below provides a reconciliation between net income and EBITDA and adjusted EBITDA.

Free Cash Flow GAAP Reconciliation

We define “free cash flow” as net cash provided by operating activities less purchases of, and plus proceeds from, equipment and intangible assets. The equipment and intangible asset purchases and proceeds are included in cash flows from investing activities. Management believes that free cash flow provides useful additional information concerning cash flow available to meet future debt service obligations and working capital requirements. However, free cash flow is not a measure of financial performance or liquidity under GAAP. Accordingly, free cash flow should not be considered an alternative to net income or cash flow from operating activities as an indicator of operating performance or liquidity. The table below provides a reconciliation between net cash provided by operating activities and free cash flow.

\$ Millions	Three Months Ended		Six Months Ended	
	June 30,		June 30,

Free cash flow (excluding the impact of merger and restructuring related payments)	\$1,850- \$2,050

Historical Adjusted Earnings Per Share GAAP Reconciliation

Adjusted EPS (earnings per share) is a non-GAAP measure that reflects diluted earnings (loss) per share from continuing operations excluding the impact of the special items described below. Management believes that adjusted EPS provides useful information concerning future profitability. However, adjusted EPS is not a measure of financial performance under GAAP. Accordingly, adjusted EPS should not be considered an alternative to GAAP earnings per share. The table below provides a reconciliation between diluted earnings (loss) per share and adjusted EPS.

Historical Adjusted Earnings Per Share GAAP Reconciliation (cont'd)

- (1) We have made a number of acquisitions in the past and may continue to make acquisitions in the future. Merger related costs only include costs associated with major acquisitions that significantly impacted our operations (the "major acquisitions," each of which had annual revenues of over \$200 million prior to acquisition).
- (2) Reflects the amortization of the intangible assets acquired in the major acquisitions.
- (3) Reflects the impact of extending the useful lives of equipment acquired in certain major acquisitions, net of the impact of additional depreciation associated with the fair value mark-up of such equipment
- (4) Reflects additional costs recorded in cost of rental equipment sales associated with the fair value mark-up of rental equipment acquired in certain major acquisitions and subsequently sold.
- (5) In March 2012, we issued \$2.825 billion of debt in connection with the RSC acquisition. The pre-close RSC merger related interest expense reflects the interest expense recorded on this debt prior to the acquisition of RSC on April 30, 2012.
- (6) Reflects a reduction of interest expense associated with the fair value mark-up of debt acquired in the RSC acquisition.
- (7) Primarily reflects severance and branch closure charges associated with our closed restructuring programs. We only include such costs that are part of a restructuring program as restructuring charges. Since the first such restructuring program was initiated in 2008, we have completed six restructuring programs. As of June 30, 2022, there were no open restructuring programs. We have cumulatively incurred total restructuring charges of \$353 million under our restructuring programs.
- (8) Primarily reflects write-offs of leasehold improvements and other fixed assets.
- (9) Reflects gains/losses on the extinguishment of certain debt securities, including subordinated convertible debentures, and write-offs of debt issuance costs associated with amendments to our debt facilities. In 2013, we retired all outstanding subordinated convertible debentures.
- (10) Reflects a gain recognized upon the sale of a former subsidiary that developed and marketed software.
- (11) We recognized a goodwill impairment charge in the fourth quarter of 2008 that reflected the challenges of the construction cycle, as well as the broader economic and credit environment. Substantially all of the impairment charge related to goodwill arising out of acquisitions made between 1997 and 2000.
- (12) In the third quarter of 2008 we settled, without admitting or denying the allegations in the SEC's complaint, to the entry of a judgment requiring us to pay a civil penalty of \$14 million associated with an SEC inquiry into our historical accounting practices.
- (13) Reflects a preferred stock redemption charge associated with the June 2008 repurchase of our Series C and D preferred stock.
- (14) Primarily relates to the establishment of a valuation allowance related to certain foreign tax credits that, as a result of the preferred stock redemption discussed above, were no longer expected to be realized.
- (15) The Tax Cuts and Jobs Act (the "Tax Act"), which was enacted in December 2017, reduced the U.S. federal corporate statutory tax rate from 35% to 21%. The benefit in 2017 reflects an aggregate benefit of \$689 million, or \$8.05 per diluted share, reflecting 1) a one-time non-cash tax benefit reflecting the revaluation of our net deferred tax liability using a U.S. federal corporate statutory tax rate of 21% and 2) a one-time transition tax on our unremitted foreign earnings and profits. Periods subsequent to 2017 reflect the lower 21% U. S. federal corporate statutory tax rate.

Historical EBITDA and Adjusted EBITDA GAAP Reconciliations (\$M)

EBITDA represents the sum of net income (loss), loss on discontinued operations, net of tax, provision (benefit) for income taxes, interest expense, subordinated convertible debentures, net, depreciation of rental equipment, and non-rental depreciation and amortization. Adjusted EBITDA represents EBITDA plus the adjusting items (determined at the time of the historic reporting) discussed below. These items are excluded from adjusted EBITDA internally when evaluating our operating performance and for strategic planning and forecasting purposes, and allow investors to make a more meaningful comparison between our core business operating results over different periods of time, as well as with those of other similar companies. The net income and adjusted EBITDA margins represent net income or adjusted EBITDA divided by total revenue. Management believes that EBITDA and adjusted EBITDA, when viewed with the Company's results under GAAP and the accompanying reconciliations, provide useful information about operating performance and period-over-period growth, and provide additional information that is useful for evaluating the operating performance of our core business without regard to potential distortions. Additionally, management believes that EBITDA and adjusted EBITDA help investors gain an understanding of the factors and trends affecting our ongoing cash earnings, from which capital investments are made and debt is serviced. The tables below provide 1) a reconciliation between net income and EBITDA and adjusted EBITDA and 2) a reconciliation between net cash provided by operating activities and EBITDA and adjusted EBITDA.

Historical EBITDA and Adjusted EBITDA GAAP Reconciliations (\$M) (cont'd)

- (1) In 2013, we retired all outstanding subordinated convertible debentures.
- (2) We have made a number of acquisitions in the past and may continue to make acquisitions in the future. Merger related costs only include costs associated with the major acquisitions that significantly impacted our operations (the "major acquisitions," each of which had annual revenues of over \$200 million prior to acquisition).
- (3) Primarily reflects severance and branch closure charges associated with our closed restructuring programs. We only include such costs that are part of a restructuring program as restructuring charges. Since the first such restructuring program was initiated in 2008, we have completed six restructuring programs. As of June 30, 2022, there were no open restructuring programs. We have cumulatively incurred total restructuring charges of \$353 million under our restructuring programs.
- (4) In the third quarter of 2008 we settled, without admitting or denying the allegations in the SEC's complaint, to the entry of a judgment requiring us to pay a civil penalty of \$14 million associated with an SEC inquiry into our historical accounting practices.
- (5) We recognized a goodwill impairment charge in the fourth quarter of 2008 that reflected the challenges of the construction cycle, as well as the broader economic and credit environment. Substantially all of the impairment charge related to goodwill arising out of acquisitions made between 1997 and 2000.
- (6) Reflects additional costs recorded in cost of rental equipment sales associated with the fair value mark-up of rental equipment acquired in certain major acquisitions and subsequently sold.
- (7) Reflects a gain recognized upon the sale of a former subsidiary that developed and marketed software.
- (8) Represents non-cash, share-based payments associated with the granting of equity instruments.
- (9) We first reported the reconciliation between net cash provided by operating activities and EBITDA and adjusted EBITDA in 2011, and 2009 is the earliest reported period with such a reconciliation. The presentation of our statement of cash flows for periods prior to 2009 differs from the presentation used in 2011, on account of which the information required to prepare the reconciliation between net cash provided by operating activities and EBITDA and adjusted EBITDA for periods prior to 2009 is unavailable without unreasonable effort.
- (10) In 2018, we adopted accounting guidance that addressed the cash flow presentation for proceeds from the settlement of insurance claims. Adoption of this guidance decreased net cash provided by operating activities, relative to previously reported amounts, but did not change EBITDA or adjusted EBITDA for 2017, 2016 and 2015 in the table above. The information required to determine the amount of insurance proceeds for periods prior to 2015 is unavailable without unreasonable effort. The insurance proceeds do not impact EBITDA or adjusted EBITDA.
- (11) The excess tax benefits from share-based payment arrangements result from stock-based compensation windfall deductions in excess of the amounts reported for financial reporting purposes. We adopted accounting guidance in 2017 that changed the cash flow presentation of excess tax benefits from share-based payment arrangements. In the table above, the excess tax benefits from share-based payment arrangements for periods after 2016 are presented as a component of net cash provided by operating activities, while, for 2015 and 2016, they are presented as a separate line item.

Historical Free Cash Flow GAAP Reconciliation (\$M)

We define “free cash flow” as net cash provided by operating activities less purchases of, and plus proceeds from, equipment and intangible assets, and plus excess tax benefits from share-based payment arrangements. The equipment and intangible asset purchases and proceeds are included in cash flows from investing activities. Management believes that free cash flow provides useful additional information concerning cash flow available to meet future debt service obligations and working capital requirements. However, free cash flow is not a measure of financial performance or liquidity under GAAP. Accordingly, free cash flow should not be considered an alternative to net income or cash flow from operating activities as an indicator of operating performance or liquidity. The table below provides a reconciliation between net cash provided by operating activities and free cash flow.

(1) In 2018, we adopted accounting guidance that addressed the cash flow presentation for proceeds from the settlement of insurance claims. Adoption of this guidance decreased net cash provided by operating activities, relative to previously reported amounts, but did not change free cash flow, for 2017, 2016 and 2015 in the table above. The information required to determine the amount of insurance proceeds for periods prior to 2015 is unavailable without unreasonable effort. The adoption of this accounting guidance did not impact free cash flow, as the reduction to net cash provided by operating activities was offset by the increase in insurance proceeds from damaged equipment.

(2) The excess tax benefits from share-based payment arrangements result from stock-based compensation windfall deductions in excess of the amounts reported for financial reporting purposes. We adopted accounting guidance in 2017 that changed the cash flow presentation of excess tax benefits from share-based payment arrangements. In the table above, the excess tax benefits from share-based payment arrangements for periods after 2016 are presented as a component of net cash provided by operating activities, while, for 2016 and prior, they are presented as a separate line item. Because we historically included the excess tax benefits from share based payment arrangements in the free cash flow calculation, the adoption of this guidance did not change the calculation of free cash flow.

(3) Merger and restructuring related payments were first reported for 2012. The information required to determine the amount of merger and restructuring related payments for periods prior to 2012 is unavailable without unreasonable effort.
