IMPORTANT INFORMATION

You may have received a confirmation for a trade, which does not appear on this statement. If the settlement date of the trade as shown on the confirmation is later than the period ending date that appears at the top of this statement the trade will appear on your next regular monthly statement.

If this is a margin account and we maintain a special miscellaneous account for you, this is a combined statement of your general account and special miscellaneous account maintained for you under Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the special miscellaneous account as required by Regulation T is available for your inspection at your request.

The per annum rate of interest charged on the debit balance in your account is shown on this statement. This rate may change from time to time in accordance with fluctuations in interest rates. Interest is computed from the 16th day of the preceding month to the 15th day of the current month except in December and January. In December, the charges include the last day of the year and, in January, the interest is calculated from the first day of the month. The interest is based on the average daily net debit balance in your account with us, and for the actual number of days based on an interest year of 360 days. When calculating margin interest, free credit balances in all accounts will be offset against any debit in the margin account and the interest will be charged on the net debit balance.

We are required to report to the Internal Revenue Service all cash dividends and registered bond interest credited to your account on securities held for you in our name. We also report coupon bond interest. All dividends and interest credits should be included in your income tax return.

Information relative to commissions and any other charges incurred in connection with listed option transactions occurring during the month has previously been furnished to you in confirmation of such transactions. A summary of this information will be made available to you promptly upon request. Exercise assignment notices for option contracts are allocated among customer short positions pursuant to a manual procedure which randomly selects from among all customer short option positions including those contracts which are subject to exercise. All short american style option positions are liable for assignment at any time whereas european style options are assigned at expiration. A more detailed description of our random allocation procedure is available upon request.

You are to promptly advise your brokerage firm or bank of any material changes concerning your investment objectives or financial situation.

Our financial statement is available for your personal inspection at our office, or a copy of it will be mailed upon your written request.

Ridge Clearing & Outsourcing Solutions, Inc. ("Ridge Clearing"), member SIPC, provides account protection for the net equity of a customer's securities positions. The Securities Investor Protection Corporation ("SIPC") provides \$500,000 of net equity protection, including \$100,000 for claims for cash awaiting reinvestment ("SIPC coverage"). For additional information, including a brochure, about SIPC coverage, please call (202) 371-8300 or visit www.sipc.org. Ridge Clearing provides additional protection ("Excess SIPC") through Customer Asset Protection Company, a licensed Vermont insurer. PORTFOLIO SUMMARY

Lists all securities held in your account.

MARKET VALUE

This amount represents the value of the security position in your portfolio based on appraisals obtained from the various quotation services. These appraisals are based on the closing prices, bond yields and/or the mean bid and ask on the last day of the statement period. Because of the nature of the data provided by the quotation services, we cannot guarantee the accuracy of such prices or the valuation dates particularly in the case of inactive or infrequently traded securities.

Some securities in your portfolio may be listed as "Unpriced" on your statement. We use an automated pricing service from an outside vendor and certain prices may not be available to them. You can obtain a current quotation, upon request, from your broker or bank.

Bond prices might differ from current market quotes. Similarly, bond ratings may differ from current actual ratings. Computerized pricing and rating services are often unable to supply us with up to the minute information. Your broker or bank will be pleased to obtain a current quotation upon request.

ESTIMATED ANNUAL INCOME

The current annual dividend or bond interest rate for each security held, if available from quotation services. The rate is multiplied by the number of shares or par value of bonds to determine estimated annual income.

OPEN ORDERS

ONLINE and COMPUTER SECURITY TIPS

Consider the following tips to help protect your computer and your personal information when you are online.

Protect your passwords.

Memorize your passwords. Do not write them down or share them with anyone. Change them regularly and use combinations of letters, numbers, and "special characters" such as the "pound" (#) and "at" (@) signs. Do not use your Social Security number or name as a username or password.

Keep your computer operating system up to date.

If your computer is more than five years old, its operating system (e.g. Windows 98, OS 7, etc.) may not offer the same level of protection as newer systems. System manufacturers provide frequent updates to help make your system more secure, possibly automatically through email or via your Internet connection. You may also check their websites at: Microsoft - <http://www.microsoft.com/security/> and Apple Computer - <http://info.apple.com/>

Use a current web browser.

To provide our customers with the most secure online access to their accounts, Firsttrade continually upgrades our online services. In certain cases, your browser eventually may become unsuitable for sensitive transactions such as Internet banking.

ANNOUNCEMENTS (CONTINUED)

ONLINE and COMPUTER SECURITY TIPS (Continued)

To maintain a high level of security, Firsttrade does not allow access to its website using browsers that do not meet our security criteria. You may need to upgrade to a supported browser.

Install a personal firewall.

Though most office networks include firewall protection, your home computer may benefit from this added level of security. Check to see if your operating system already includes a firewall prior to purchasing a separate one.

Install, run, and keep anti-virus software updated.

Commercially available virus protection software helps reduce the risk of contracting computer viruses that can compromise your security. These programs offer continuous upgrades in response to the latest threats. Two of the most popular programs are McAfee and Symantec.

Use secure websites for transactions and shopping.

Make sure the web page you are viewing offers encryption of your data.

Often you will see a lock symbol in the lower right-hand corner of your browser window, or the web address of the page you are viewing will begin with "https://...". The "s" indicates "secured" and means the web page uses encryption.

Firsttrade provides 128-bit encryption - the highest level available today.

Avoid downloading programs from unknown sources.

Downloads from unfamiliar sources may contain hidden programs or viruses that can compromise your computer's security.

Disconnect from the Internet when not in use.

Dedicated services such as DSL or high-speed cable provide a constant connection between your computer and the Internet. Even if you have a firewall installed, as an additional step to help protect yourself, disconnect from the Internet when not in use to avoid unwanted access to your computer's data.
