FRIDAY, AUGUST 28th, 5:30 PM EDT AND 7:30 PM EDT

5:30 PM EDT	Cy Lynch	Investing in Turbulent Times: Preparing for the Inevitable Bear – Advanced <u>REGISTER</u>	We will first review past market cycles, concentrating on the last two bull/bear cycles. Then using a lesson learned approach, we will explore specific portfolio management techniques to help maximize gains in up markets, while minimizing them in down ones. Specific topics will include finding projected return for the market, using it to guide portfolio management, selling overpriced stocks and when holding cash is ok.
5:30 PM EDT	Suzi Artzberger	Historical Growth and Company Management – Beginner <u>REGISTER</u>	Think you have fallen in love with a potential investment? Do not waste time trying to do an SSG on a company that does not have growth or great management. We will review guidelines when doing a visual analysis of sales and earnings for your company and evaluating company quality to make these SSG sections easier.
5:30 PM EDT	Ron Bruyn	Eight Key Important Factors – Intermediate <u>REGISTER</u>	We will discuss the Eight Key Factors that are most important to the fundamentals of a company before making an investment. Is the company firing on all its eight cylinders and is the company maximizing its strengths to stay ahead of the competition? We shall examine these eight factors so it will give you a better understanding of sharpening your skills and making better decisions.
7:30 PM EDT	Suzi Artzberger	Forecasting Sales and Earnings – Beginner <u>REGISTER</u>	Confused about how to forecast or estimate sales or earnings? The guidelines we learn here will help keep you grounded and out of trouble. Tips and research ideas from the CoreSSG and SSGPlus tools to support your forecasts will also be presented.
7:30 PM EDT	Nick Stratigos	Sell Signals – Intermediate <u>REGISTER</u>	The Stock Selection Guide (SSG) teaches us how to interpret the fundamentals of a company to determine what stocks to buy and when. Fundamental analysis also applies to our sell decisions. In this session, the top criteria to consider before selling a stock

7:30 EDT	Cy Lynch Total Return vs. The Upside/Downside Ratio – Intermediate <u>REGISTER</u>	 are identified and explored. Both signals on our SSG and other signals not found on the SSG will be discussed. Total return and the Upside/Downside (U/D) Ratio are two of the metrics on the Stock Selection Guide (SSG) traditionally viewed as relating to a stock's potential value. In this class, Cy will explain why using the U/D ratio as a measure of stock value or risk is misleading at best and detrimental to your investing success at worst. We'll then examine how to maximize your return by focusing on projected total return both for individual stocks and your portfolio as a whole.
