

# iShares S&P Small-Cap 600 Value ETF

## Fund Description

The iShares S&P Small-Cap 600 Value ETF seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of U.S. small-cap value stocks, as represented by the S&P SmallCap 600® Value Index ("the Index").

## Index Description

The Index measures performance of the small capitalization value sector of the U.S. equity market. It is a subset of the S&P 600 Index and consists of those companies exhibiting the strongest value characteristics in the S&P SmallCap 600 Index, representing approximately 52% of the market capitalization of the S&P SmallCap 600 Index. The Fund uses a representative sampling strategy in seeking to track the Index.

**The performance quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling toll-free 1-800-iShares (1-800-474-2737) or by visiting [www.iShares.com](http://www.iShares.com).**

After Tax Held Returns represent return after taxes on distributions. Assumes shares have not been sold. After Tax Sold Returns represent the return after taxes on distributions and the sale of fund shares. Returns are average annualized total returns, except those for periods of less than one year, which are cumulative. Market returns are based upon the midpoint of the bid/ask spread at 4:00 p.m. eastern time (when NAV is normally determined for most iShares Funds), and do not represent the returns you would receive if you traded shares at other times.

Index performance returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on the investor's tax situation and may differ from those shown. The after-tax returns shown are not relevant to investors who hold their fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.
