

# NATIONWIDE INVESTMENT CLUB

Formed January 1, 2008

Welcome to **Nationwide Investment Club**, an online Investment club with members located throughout the United States. We are a newer investment club and are currently looking for new members. Meetings are conducted using online conferencing programs such as “*Skype*” and WebEx which is free for our members. Most of the information that is passed during the month is transmitted via e-mail. All of our members share a desire to learn more about investing and to receive a return on our investments. For more information about Nationwide Investment Club please read our Mission Statement, Partnership Agreement, and By-Laws.

If you would like to attend a meeting or need additional information please contact one of our club officers below:
